Dear Sir:

Centocor Biologics, LLC is submitting the enclosed Initial Notification indicating that we are subject to 40 CFR 63 Subpart ZZZZ, National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines.

This notification was also submitted to the Missouri Department of Natural Resources today. Please feel free to contact Karen Acker at 314-733-3046 if you have any questions concerning this notification.

Sincerely,

A handwritten signature in dark ink, appearing to read "Mark Bell", is written over a light blue horizontal line.

Mark Bell

Initial Notification of Applicability

National Emission Standards for Hazardous Air Pollutants:
Stationary Reciprocating Internal Combustion Engines
40 CFR Part 63 Subpart ZZZZ

☒ Yes, I am subject to 40 CFR Part 63 subpart ZZZZ National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines

NAICS code(s): 325414

Compliance Date: ☒ Existing source: May 3, 2013 ☐ New/reconstructed source: upon initial startup

Note: The May 3, 2013 compliance date for existing sources applies to the following engine types:

- Existing non-emergency CI stationary RICE with a site rating of more than 500 brake HP located at a major source of HAP emissions
- Existing stationary CI RICE with a site rating of less than or equal to 500 brake HP located at a major source of HAP emissions
- Existing stationary CI RICE located at an area source of HAP emissions

Company name: Centocor Biologics, LLC

Facility Address (physical location): 4766 La Guardia Drive

St. Louis, MO 63134

Parent Company: Centocor Research Development Supply, Inc.

Parent Company Address: 800/850 Ridgeview Drive

Horsham, PA 19044

My facility is a (please choose one): ☐ Major source ☒ Area source
☐ Synthetic minor

Centocor Biologics, LLC

Affected Source(s): Three (3) emergency stationary compression ignition RICE [2.25 MW each, diesel fueled]
These engines meet the definition of an emergency stationary RICE and are located at
an area source of HAP. The engines are not subject to numerical emission limits. Each
engine is equipped with a non-resettable hour meter and is subject to the inspection and
maintenance requirements in Table 2d to Subpart ZZZZ for Emergency CI, #4.

Bethany, Missouri 64424
Phone: 660-425-3511
Fax: 660-425-7889*

To Whom It May Concern:

Following is the initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for Bethany Municipal Power Plant.

The City of Bethany is the owner and operator of the equipment affected by this regulation. Our offices are located at City Hall, 206 North 16th Street, Bethany, Missouri, 64424.

The affected sources include four diesel engine generators located at 804 South 11th Street (known as the 11th and Beekman plant or Power Plant #1) and one diesel engine generator located at 104 North 41st Street (known as the East Outer Road plant or Power Plant #2). Both locations are within the City of Bethany and part of Bethany Municipal Power Plant.

The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

The four diesel engine generators remaining in operation at the 11th and Beekman location were installed between 1958 and 1980 and are rated between 1600 and 2880 horsepower (Hp). The engine generator at the East Outer Road location was installed in 1993 and is rated at 1600 Hp. All of the engine generators are currently used to provide electrical power for distribution in commerce. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 Hp and non-limited use. The hazardous air pollutants (HAP) include 1,3 butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene. Metallic HAP includes cadmium, chromium, lead, manganese, mercury, nickel and selenium.

The Bethany Municipal Power Plant is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact Kenny Robertson, acting power Plant Superintendent (660-425-3511).

Sincerely yours,

Jan Hagler
City Administrator

RE: NESHAP Initial Notification
Macon Municipal Utilities – Power Plant
Facility ID: 2141
NAICS Code: 221112

Dear Ms. Webber and Mr. Kavanaugh:

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 C.F.R. Part 63 Subpart ZZZZ. These amendments were effective on May 3, 2010. Pursuant to Section 63.6645(a) and Section 63.9(b), **Macon Municipal Utilities** submits the following information as its Initial Notification:

1. Name and address of the owner/operator:
Macon Municipal Utilities, P. O. Box 569, Macon, MO 63552,
slucas@gommu.com
(660) 385-2514
2. Address of the affected source (*i.e.* the physical location of the engine(s) subject to Subpart ZZZZ):
404 Vine Street, Macon, MO 63552
3. Identification of the relevant standard and compliance date:
Subpart ZZZZ standards for existing RICE at area sources and May 3, 2013.

Ms. Rebecca Webber
Mr. James Kavanaugh
August 17, 2010
Page 2

4. Description of the affected source:
Nordberg TSGL, 2110 SC, 7675 HP
Worthington SWCGO-16, 6918 HP
Caterpillar 3512, 1543 HP
5. Types of HAPs emitted by affected source: Benzene, toluene, xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.
6. Major or Area Source: Area.

If you have any questions regarding the above, please do not hesitate to contact **Scott Lucas**, slucas@gommu.com, (660) 385-2514

RE: NESHAP Initial Notification
Rock Port Municipal Light Plant
918 Depot Road
NAICS Code: 221112

Dear Ms. Webber and Mr. Kavanaugh:

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 C.F.R. Part 63 Subpart ZZZZ. These amendments were effective on May 3, 2010. Pursuant to Section 63.6645(a) and Section 63.9(b), The City of Rock Port, Board of Public Works dba Rock Port Municipal Utilities submits the following information as its Initial Notification:

1. Name and address of the owner/operator: City of Rock Port, Board of Public Works, dba Rock Port Municipal Utilities, 102 West Clay, Rock Port MO 64482
2. Address of the affected source (*i.e.* the physical location of the engine(s) subject to Subpart ZZZZ): 918 Depot Road, Rock Port MO 64482
3. Identification of the relevant standard and compliance date: Subpart ZZZZ standards for existing RICE at area sources and May 3, 2013.

4. Description of the affected source:
Engines 1 & 2 1500 HP, Fairbanks Morse, Model # 38DD8 1/8
Engines 5 & 6 1920 HP, Fairbanks Morse, Model # 38DD8 1/8
Engine 3 715 HP, White Diesel, Model #40
5. Types of HAPs emitted by affected source: Benzene, toluene, xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.
6. Major or Area Source: Area.

The City of Rock Port, Board of Public Works, dba Rock Port Municipal Utilities plans to operate RICE at the facility that are exclusively used for emergencies and meet the definitions outlined in 40 C.F.R. Part 63 Subpart ZZZZ. These RICE are not subject to emission controls but are listed below for purpose of reference:

918 Depot Road, Rock Port MO 64482

Engines 1 & 2, 1500 HP, Fairbanks Morse, Model # 38DD8 1/8

Engines 5 & 6, 1920 HP, Fairbanks Morse, Model # 38DD8 1/8

Engine 3, 715 HP, White Diesel, Model #40

Unit 6: Caterpillar model 3516 Genset 16 cylinder, 2593 horsepower
Unit 7: Caterpillar model 3516 Genset 16 cylinder, 2593 horsepower

North Substation (921 Industrial Drive)

Unit 1: Electro Motive Diesel model MP 645 20 cylinder, 3600 horsepower
Unit 2: Electro Motive Diesel model MP 645 20 cylinder, 3600 horsepower
Unit 3: Electro Motive Diesel model MP 645 20 cylinder, 3600 horsepower
Unit 4: Electro Motive Diesel model MP 645 20 cylinder, 3600 horsepower
Unit 5: Electro Motive Diesel model MP 645 20 cylinder, 3600 horsepower

5. **Types of HAPs emitted by affected source:** Benzene, toluene, xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.
6. **Major or Area Source:** Area.

The City of Trenton / Trenton Municipal Utilities will be considering the operation of RICE at the facility that are exclusively used for emergencies and meet the definitions outlined in 40 C.F.R. Part 63 Subpart ZZZZ. These RICE are not subject to emission controls but are listed below for purpose of reference:

Ms. Rebecca Webber
Mr. James Kavanaugh
August 23, 2010
Page 3

Crowder Road (Power) Plant (1115 West Crowder Road) – *At this time we anticipate that the units are our Crowder Road (Power) Plant will all be taken out of service after the effective date of this rule but we are still considering the options available so therefore they have been included in the list sources affected in case we opt to keep them in service after the effective date.*

Unit 1: Fairbanks model 33-D-16 4 cylinder, 650 horsepower
Unit 2: Fairbanks model 33-D-16 4 cylinder, 650 horsepower
Unit 4: Fairbanks model 33-F-16 7 cylinder, 1400 horsepower
Unit 5: Fairbanks model 33-F-16 8 cylinder, 1600 horsepower
Unit 6: Superior model 80-GDSX 8 cylinder, 1769 horsepower
Unit 7: Superior model 80-EX 8 cylinder, 1440 horsepower

Note: Unit 7 is still in place but out of service starting August 2010.

In addition to the units listed above the City of Trenton / Trenton Municipal Utilities also operates other RICE that are used exclusively for emergencies and they will continue to be operated only in the event of an emergency. While not required to provide a listing of those location we are doing so as an aid for compliance with the rule in the future. The current locations with emergency only RICE include the wastewater treatment plant, one sanitary sewer lift station, and the fire station. We are considering the installation of similar systems at the water treatment facilities and additional lift stations.

If you have any questions regarding the above, please do not hesitate to contact Kerry Sampson, City Administrator at cityadmin@trentonmo.com or 660-359-4310.

Dear Ms. Webber and Mr. Kavanaugh:

RE: NESHAP Initial Notification of Applicability
Marshall Municipal Utilities, Marshall, MO
FIPS County No.: 195 Plant No.: 0010
NAICS Code: 221112
MDNR Permit No.: OP2010-059

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 CFR, Part 63 Subpart ZZZZ. These amendments were effective May 3, 2010. Pursuant to Section 63.6645(a) and Section 63.9(b), Marshall Municipal Utilities submits the following information as its Initial Notification:

1. Name and address of the owner/operator:

Marshall Municipal Utilities
75 E. Morgan
Marshall, MO 65340
660-886-6966
kgibbs@mmumo.net

2. Identification of the relevant standard and compliance date:

40 CFR Part 63 Subpart ZZZZ
Compliance Date: May 3, 2013

3. Description of affected source:

Marshall Municipal Utilities plans to operate existing Non-Emergency CI stationary RICE at the facility with a site rating of more than 500 BHP located at a Major source of HAP emissions which meet the definitions outlined in 40 CFR Part 63 Subpart ZZZZ. The location and engine data are listed below.

Unit #7 – Water Treatment Plant, 27759 Highway N, Malta Bend, Missouri
Engine: Cummins/Onan Genset
Engine Model: KTA-50-G1
Rated Power: 1490 BHP @ 1800 RPM

Unit #8 – This unit is the same as Unit #7, at the same location

Unit #9 – Wastewater Treatment Plant, 2232 Watermill Road, Marshall, Missouri
Engine: Cummins/Onan Genset
Engine Model: KTA-50-G1
Rated Power: 1490 BHP @ 1800 RPM

Unit #10 – Power Plant, 765 West North Street, Marshall, Missouri
Engine: Cooper-Bessemer
Engine Model: LSVB-20-GDT
Engine Serial Number: 7268
Rated Power: 8710 BHP @ 400 RPM

Unit #11 – Power Plant, 765 West North Street, Marshall, Missouri
Engine: Cooper-Bessemer
Engine Model: LSVB-20-GDC
Engine Serial Number: 7277
Rated Power: 8710 BHP @ 400 RPM

4. Types of HAPs emitted by affected source: Benzene, toluene, xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.
5. Major or Area Source: Major Source

APCC

August 24, 2010

Air Compliance Branch Chief
EPA Region 7
901 North 5th Street
Kansas City, KS 66101

To Whom It May Concern:

Following is the initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for Landmark Manufacturing Corporation.

Landmark Manufacturing Corporation is the owner and operator of the equipment affected by this regulation. Our offices are located at 28100 Quick Avenue, Gallatin, Missouri, 64640.

The affected sources include two Steward Stevenson diesel engine generators. Both are located at our facility at the above address.

The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Each of the diesel engine generators was installed in 1999, is rated at 1000 Hp and has been used to provide back up electrical power to our facility. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 Hp. The engines will comply with the emergency only use requirements by May 3, 2013. The hazardous air pollutants (HAP) include 1,3 butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene. Metallic HAP include cadmium, chromium, lead, manganese, mercury, nickel and selenium.

Landmark Manufacturing Corporation is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact Priscilla Whitt, (660-663-8826).

Sincerely yours,

Kevin Critten
Vice President of Operations

RE: NESHAP Initial Notification of Applicability

Facility: Farmington Light and Power
Owner/Company: City of Farmington, MO
FIPS No. 187; Plant No. 0075; St. Francois County
NAICS Code 221112

Dear Ms. Webber and Mr. Kavanaugh:

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 CFR Part 63 Subpart ZZZZ. These amendments were effective on May 3, 2010. Pursuant to Section 63.6645(a) and Section 63.9(b), the City of Farmington, Farmington Light and Power Department submits the following information as its Initial Notification of Applicability:

1. City of Farmington/Farmington Light and Power Department

110 W. Columbia Street
Farmington, MO 63640
573.756.1701

2. Affected sources subject to Subpart ZZZZ and their locations:

Engines 1, 2, 3, 4: Elm Street Substation
400 East Elm Street
Farmington, MO 63640

Engines 5, 6, 7: Walton Street Substation
654 Walton Street
Farmington, MO 63640

Engines 8, 9, 10: Jefferson Street Substation
1037 South Jefferson Street
Farmington, MO 63640

Engines 11, 12, 13, 14: Overall Road Substation
4092 Overall Road
Farmington, MO 63640

3. Relevant Standard and Compliance Date:

Subpart ZZZZ standards for existing CI-RICE units at AREA sources, 3 May 2013.

4. Description of the affected sources:

Fourteen (14) identical Cummins engine/Onan generator units, Model DQKC, 2922 Brake-horsepower each.

5. Types of hazardous Air Pollutants (HAPS) emitted by this affected source:

Benzene, toluene, xylenes, butadiene (1,3-), formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.

6. This facility is an Area Source.

The City of Farmington, Farmington Light and Power Department plans to operate these existing CI-RICE units for (a.) emergency back-up purposes and for (b.) peak-shaving, power production for local retail sales, and for sale of capacity to the wholesale power purchasing pool of which the City is a member. ***Because of the intended uses stated in part (b) of this paragraph the City of Farmington, Farmington Light and Power Department understands that it is included in the requirement for Initial Notification of Applicability pursuant to 40 CFR Section 63.6645(a)(2).***

Kansas City, MO 64120-0013
Phone: 816 242-2000

This letter and the enclosed attachment provide notification that the Bayer CropScience facility located at 8400 Hawthorn Road, Kansas City, Missouri is subject to 40 Code of Federal Regulations (CFR) Part 63, Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Stationary Reciprocating Internal Combustion Engines, effective date of May 3, 2010.

Copies of the notification have also been sent to the Director of the Missouri Department of Natural Resource's Air Pollution Control Program and to the Manager of the Kansas City Health Department's Air Quality Program. Bayer will continue to provide correspondence concerning this NESHAP to the Environmental Protection Agency (EPA) Region VII until such time that the Reciprocating Internal Combustion Engine NESHAP is incorporated into the Missouri Code of State Regulations.

If you have any questions regarding the information provided in this notification, please contact me at 816-242-2962.

Sincerely,

June 14, 2010

40 CFR 63 Subpart ZZZZ within 120 days of May 3,

the equipment affected by this regulation. Our offices

The affected sources include four _____ generators, all located at 1901 Grand Street, Lamar, MO, 64759

The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Three of the four diesel engine generators are rated at 2 MW and one is rated at 1.6 MW. All were manufactured by Caterpillar and are used to provide electrical power for distribution in commerce. The diesel engine generators became operational in 2000. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 HP and non-limited use. The regulation is intended to reduce formaldehyde emissions.

This City of Lamar is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact me directly at (417) 682-5554, extension 310.

Sincerely yours,

Lynn Calton, PE

RE: NESHAP Initial Notification
City of Gallatin
NAICS Code: 221112

Dear Ms. Webber and Mr. Kavanaugh:

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 C.F.R. Part 63 Subpart ZZZZ. These amendments were effective on May 3, 2010. Pursuant to Section 63.6645(a) and Section 63.9(b), the City of Gallatin submits the following information as its Initial Notification:

1. Name and address of the owner/operator:
City of Gallatin
112 E. Grand
Gallatin, MO 64640
Phone: 660-663-2011
2. Address of the affected source (*i.e.* the physical location of the engine(s) subject to Subpart ZZZZ):
701 E. Corrine
Gallatin, MO 64640

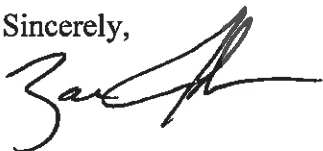

Ms. Rebecca Webber
Mr. James Kavanaugh
August 31, 2010
Page 2

3. Identification of the relevant standard and compliance date:
Subpart ZZZZ standards for existing RICE at area sources and
May 3, 2013.
4. Description of the affected source:
2 – General Motors 2.5 MW units
2 – General Motors 1.0 MW units
5. Types of HAPs emitted by affected source: Benzene, toluene,
xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein,
some polycyclic aromatic hydrocarbons and other trace organic
compounds.
6. Major or Area Source: Area.

The City of Gallatin also operates existing non-emergency stationary CI RICE less than or equal to 300 hp that are not subject to any numerical emission standards. These RICE are not required to be included in the Initial Notification pursuant to 40 C.F.R. § 63.6645(a)(5).

If you have any questions regarding the above, please do not hesitate to contact me at 660-663-2011.

Sincerely,

Zachary Johnson

Pursuant to Section 63.6645(a) and Section 63.9(b), the City of Fayette, MO submits the following information as its Initial Notification:

1. **Name and address of the owner/operator:**

Name: City of Fayette

Address: City Hall

117 S. Main

Fayette, MO 65248

Email: fayettecityadm@att.net

Phone: (660) 248-5246

*Revised - please
disregard letter
sent on August 30,
2010.*

*Sincerely,
Robin Christman*

2. **Address of the affected source (i.e. the physical location of the engine(s) subject to Subpart ZZZZ):**

Engines 1-4

Address: Fayette Power Plant
108 Armstrong St.
Fayette, MO 65248

Email: fayetteelectric@att.net

Phone: (660) 248-2784

John Deere Engine

Address: Fayette Wastewater
170 Hwy 240 S.
Fayette, MO 65248

Email: fayettelagoon@att.net

Phone: (660) 248-2154

3. **Identification of the relevant standard and compliance date:** Subpart ZZZZ standards for existing RICE at area sources.
March 3, 2013.

4. **Description of the affected source:**

Engine 1: Worthington, SW/14-VEE, 4190 HP.

Engine 2: Worthington, SW/14-VEE, 4190 HP

Engine 3: Fairbanks Morse, 38TDD 8 1/8, 3960 HP

Engine 4: Fairbanks Morse, 38DD 8 1/8, 1600 HP

Fayette Wastewater: John Deere, 6135HF485, 617 HP

5. **Types of HAPs emitted by affected source:**

Benzene, toluene, xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.

6. **Major or Area Source:**

Area Source

The City of Fayette, MO plans to operate RICE at the facility that are exclusively used for emergencies and meet the definitions outlined in 40 C.F.R. Part 63 Subpart ZZZZ. These RICE are not subject to emission controls but are listed below for purpose of reference:

Physical location of RICE:

Engines 1-4

Fayette Power Plant
108 Armstrong St.
Fayette, MO 65248

John Deere Engine
Fayette Wastewater
170 Hwy 240 S.
Fayette, MO 65248

Make, Model & Horsepower:

Engine 1: Worthington, SW/14-VEE, 4190 HP.
Engine 2: Worthington, SW/14-VEE, 4190 HP
Engine 3: Fairbanks Morse, 38TDD 8 1/8, 3960 HP
Engine 4: Fairbanks Morse, 38DD 8 1/8, 1600 HP
Fayette Wastewater: John Deere, 6135HF485, 617 HP

RE: NESHAP RICE Initial Notification
ROLLA MUNICIPAL UTILITIES
Installation ID #161-0054
NAICS Code: 221112

Dear Ms. Webber and Mr. Kavanaugh:

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 C.F.R. Part 63 Subpart ZZZZ. These amendments were effective on May 3, 2010. Pursuant to Section §63.6645(a) and Section 63.9(b), ROLLA MUNICIPAL UTILITIES submits the following information as its Initial Notification:

1. Name and address of the owner/operator:

ROLLA MUNICIPAL UTILITIES
102 West 9th Street
Rolla MO 65401
info@rollamunicipalutilities.org
573-364-1572

2. Address of the Existing Stationary Non-Emergency Limited Use RICE >500HP affected sources (subject to Subpart ZZZZ):

Address	Emission Unit
204 East 8 th Street	EU0010 thru EU0040
500 Sheron Avenue	EU0050 & EU0060
500 Lanning Lane	EU0070 & EU0080
10822 Dewing Lane	EU0090 & EU0100
2017 Industrial Park Drive	EU0110 & EU0120
3906 Hy-Point Blvd.	EU0130 & EU0140
1112 West 11 th Street	EU0150 thru EU0170

3. The relevant standard for the affected sources is found in Part II, Environmental Protection Agency, 40 CFR part 63, National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines: Final Rule Federal Register/Vol. 75, No.41/Wednesday March 3, 2010, pg 9675, §63.6603(a). The date for compliance with this standard is May 3, 2013 as found in Part II, Environmental Protection Agency, 40 CFR part 63, National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines: Final Rule Federal Register/Vol. 75, No.41/Wednesday March 3, 2010, pg. 9675, §63.6595(a)(1).

4. Description of the affected source: 17 each identical, Existing Stationary Non-Emergency, Limited Use RICE, 2876 HP, CATERPILLAR 3516. (see attached photo of Engine Information from affected source)

5. The types of HAPs emitted by affected sources are 1, 3-butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene as listed in Part II, Environmental Protection Agency, 40 CFR part 63, National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines: Final Rule Federal Register/Vol. 75, No.41/Wednesday March 3, 2010, III.B. on page 9651. No performance testing of HAP's has been performed on affected sources to determine actual HAP emissions.
6. ROLLA MUNICIPAL UTILITIES Potential Emissions of the installation (all 17- Existing Stationary Non-Emergency, RICE) of 2.27 (tons per year) assuming continuous operation of (8760 hours per year) of HAPs were obtained from the Environmental Protection Agency (EPA) document AP-42, Compilation of Air Pollutant Emission Factors, Fifth Edition, Section 3.4 Large Stationary Diesel and All Stationary Dual-Fuel Engines (1/95).

ROLLA MUNICIPAL UTILITIES (Part 70 Permit to Operate # OP2010-031 pg. 7.) Emission Limitation of < 250 tons of NOx per 12 consecutive months indirectly sets the HAPs Potential Emissions of the installation at .20 tons per 12 consecutive months resulting in ROLLA MUNICIPAL UTILITIES being categorized as a Area Source site as described in Part II, Environmental Protection Agency, 40 CFR part 63, National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines: Final Rule Federal Register/Vol. 75, No.41/Wednesday March 3, 2010, III.A. on page 9650.

ROLLA MUNICIPAL UTILITIES plans to operate one (1) Existing Stationary Emergency RICE, 250 HP John Deere at the facility (811 Highway O) that is exclusively used for emergencies and meet the definitions outlined in 40 C.F.R. Part 63 Subpart ZZZZ. This RICE is not subject to emission controls but is subject to Management Practice Standards as described in Part II, Environmental Protection Agency, 40 CFR part 63, National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines: Final Rule Federal Register/Vol. 75, No.41/Wednesday March 3, 2010, pg. 9656 [(IV) Summary of Significant Changes Since Proposal(B) Final Emission Standards, (5) All existing stationary emergency CI engines located at area sources must meet management practice standards.]

The following are considered not subject to Part II, Environmental Protection Agency, 40 C.F.R. Part 63 Subpart ZZZZ, NESHAP by meeting the EPA definition of Non-Road engines as described in 40 CFR §1068.30 (1), (i), (ii) and (iii): Two (2) Existing Non-Road Emergency RICE, 550 HP Detroit Diesels, one (1) Existing Non-Road Emergency RICE, 100 kW, General Motors Model 6043C.

If you have any questions, please do not hesitate to contact me.

Sincerely,

ROLLA MUNICIPAL UTILITIES

To Whom It May Concern:

Following is the initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for Butler Municipal Power Plant.

The city of Butler is the owner and operator of the equipment affected by this regulation. Our offices are located at City Hall, 22 West Ohio Street, Butler, Missouri, 64730.

The affected sources include eight diesel engine generators located at 704 West Mill Street within the city of Butler. The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Four Fairbanks Morse diesel engine generators were installed between 1945 and 1963 and are rated between 1250 and 2000 horsepower (Hp). Four Caterpillar diesel engine generators were installed in 1999 and are rated at 3000 Hp. All of the engine generators are currently used to provide electrical power for distribution in commerce. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 Hp and non-limited use. The regulation is intended to reduce formaldehyde emissions.

The Butler Municipal Power Plant is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact me directly (660-679-4013).

Sincerely yours,

Mark Arbuthnot
City Administrator

To Whom It May Concern:

Following is our revised initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for the City of Lamar.

The City of Lamar is the owner and operator of the equipment affected by this regulation. Our offices are located at 1104 Broadway, Lamar, MO 64759.

The affected sources include four diesel engine generators, all located at 1901 Grand Street, Lamar, MO, 64759

The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Three of the four diesel engine generators are rated at 2 MW and one is rated at 1.6MW. All were manufactured by Caterpillar and are used to provide electrical power for distribution in commerce. The diesel engine generators became operational in 2000. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 HP and non-limited use. The hazardous air pollutants (HAP) include 1,3 butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene. Metallic HAP include cadmium, chromium, lead, manganese, mercury, nickel and selenium.

This City of Lamar is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact me directly at (417) 682-5554, extension 310.

Re: Revised Notification Letter

To Whom It May Concern:

Following is our revised initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for Butler Municipal Power Plant.

The city of Butler is the owner and operator of the equipment affected by this regulation. Our offices are located at City Hall, 22 West Ohio Street, Butler, Missouri, 64730.

The affected sources include eight diesel engine generators located at 704 West Mill Street within the city of Butler. The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Four Fairbanks Morse diesel engine generators were installed between 1945 and 1963 and are rated between 1250 and 2000 horsepower (Hp). Four Caterpillar diesel engine generators were installed in 1999 and are rated at 3000 Hp. All of the engine generators are currently used to provide electrical power for distribution in commerce. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 Hp and non-limited use. The hazardous air pollutants (HAP) include 1,3 butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene. Metallic HAP include cadmium, chromium, lead, manganese, mercury, nickel and selenium.

The Butler Municipal Power Plant is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact me at (660-679-4013).

CERTIFIED MAIL
Return Receipt Requested

To Whom It May Concern:

Following is the initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for the city of Shelbina, Missouri and its power plants.

The city of Shelbina is the owner and operator of the equipment affected by this regulation. Our offices are located at 116 East Walnut, Shelbina, Missouri, 63468.

The affected sources include one dual fueled (natural gas/diesel) Fairbanks Morse engine generator and five Caterpillar diesel engine generators located at 410 West Chestnut; and two Caterpillar diesel engine generators located at 104 North Douglas. Both locations are in the city of Shelbina, Missouri.

The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Each of the diesel engine generators are used to provide electrical power for distribution in commerce. The Fairbanks Morse engine became operational in 1981 and is rated at 4191 horsepower (Hp). The Caterpillar engines became operational between 1989 and 2001, and are rated between 2307 and 2628 Hp. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 Hp and non-limited use. The hazardous air pollutants (HAP) include 1,3 butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene. Metallic HAP include cadmium, chromium, lead, manganese, mercury, nickel and selenium.

The Shelbina power plants are an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact Boyce Branstetter, Electric Supervisor (573-588-4104, Extension 20).

APCO

To Whom It May Concern:

Following is our revised initial notification required by 40 CFR 63 Subpart ZZZZ within 120 days of May 3, 2010 for Chillicothe Municipal Utilities.

Chillicothe Municipal Utilities is the owner and operator of the equipment affected by this regulation. Our offices are located at 920 Washington Street, Chillicothe, MO, 64601. The affected sources include five diesel engine generators, all located at the Beardmore Energy Center, 1611 Waterworks Road, Chillicothe, MO, 64601.

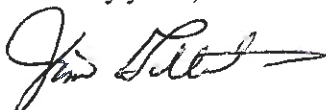

The diesel engines are subject to 40 CFR 63 Subpart ZZZZ, National Emission Standards for Hazardous Air Pollutant from Stationary Reciprocating Internal Combustion Engines, and the initial notification requirements specified in 40 CFR 63.9(b)(1) to (5). The compliance date of the standard is May 3, 2013.

Each of the five diesel engine generators is rated at 2 MW, manufactured by Caterpillar and is used to provide electrical power for distribution in commerce. The diesel engine generators became operational in July of 2003. The equipment is subject to the requirements in Subpart ZZZZ as existing stationary reciprocating internal combustion engines located at an area source, greater than 500 HP and non-limited use. The hazardous air pollutants (HAP) include 1,3 butadiene, acetaldehyde, acrolein, benzene, ethylbenzene, formaldehyde, n-hexane, naphthalene, PAH, polycyclic organic matter, styrene, toluene and xylene. Metallic HAP include cadmium, chromium, lead, manganese, mercury, nickel and selenium.

Chillicothe Municipal Utilities is an area source for Hazardous Air Pollutants.

If the agency has any questions after receiving this notification, please contact Mike Jacobs, power plant superintendent (660-646-1661).

Sincerely yours,

Jim Gillian

RE: NESHAP Initial Notification
Chillicothe Municipal Utilities
FACILITY ID – 117-0002
NAICS Code: 221112

Dear Ms. Webber and Mr. Kavanaugh:

On March 3, 2010, the United States Environmental Protection Agency adopted final amendments to the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines, 40 C.F.R. Part 63 Subpart ZZZZ. These amendments were effective on May 3, 2010. Pursuant to Section 63.6645(a) and Section 63.9(b), Chillicothe Municipal Utilities submits the following information as its Initial Notification:

1. Name and address of the owner/operator:
Chillicothe Municipal Utilities
920 Washington St.
Chillicothe, MO. 64601
Phone: 660-646-1683
Email: jgillilan@cmuchillicothe.com
2. Address of the affected source (*i.e.* the physical location of the engine(s) subject to Subpart ZZZZ):
1611 Waterworks Rd
Chillicothe, MO 64601

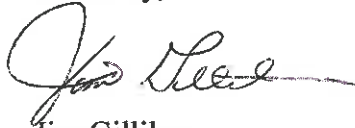

Ms. Rebecca Webber
Mr. James Kavanaugh
August 5, 2010
Page 2

3. Identification of the relevant standard and compliance date:
Subpart ZZZZ standards for existing RICE at area sources and May 3, 2013.
3. Description of the affected source:

Unit 1: Caterpillar 3516B, HP-2876
Unit 2: Caterpillar 3516B, HP-2876
Unit 3: Caterpillar 3516B, HP-2876
Unit 4: Caterpillar 3516B, HP-2876
Unit 5: Caterpillar 3516B, HP-2876
5. Types of HAPs emitted by affected source: Benzene, toluene, xylenes, 1,3-butadiene, formaldehyde, acetaldehyde, acrolein, some polycyclic aromatic hydrocarbons and other trace organic compounds.
6. Major or Area Source: Area.

If you have any questions regarding the above, please do not hesitate to contact Jim Gillilan at 660-646-1683 or email jgillilan@cmuchillicothe.com.

Sincerely,

Jim Gillilan
General Manager
Chillicothe Municipal Utilities
